

Collaborate SEAMLESSLY

The VoiceStream Unified Communications Solution

- Improve productivity by working with offsite colleagues and customers as though they were in the same office.
- Achieve first call resolution for customer and prospect inquiries.
- Minimize the need for travel by integrating all employees onto a seamless, easy to manage communications infrastructure.

IMPROVE PRODUCTIVITY

- Experience virtual meetings and file sharing, desktop sharing and chat capabilities.
- Stay ahead of the competition with cloud based technology - you'll always have the latest version.

IMPROVE CUSTOMER SERVICE

- Utilize presence indication for instant view of available associates.

DECREASE COSTS

- Reduce costs for bandwidth and calling services with a single, seamless collaboration infrastructure.
